

The Scotia Rail Development Society, a not-for-profit volunteer organization, believes a fully operational rail is needed to serve the region of Eastern Nova Scotia and beyond. Since Genesee & Wyoming, then-owner of the Cape Breton and Central Nova Scotia Railway, was granted discontinuance of the Sydney subdivision by the province of Nova Scotia in 2015, we have been pursuing its revitalization. Since that time, we have accumulated a large amount of information in efforts to lobby on behalf of the people of Nova Scotia. Included are some responses from Government. Our goal is threefold - to improve our economy and to address both environmental and safety concerns. We are happy to share the enclosed material and feel it will be helpful to anyone who would like to acquire a greater understanding of the need and the efforts put forth to achieve these goals.
